

Build My Church

Matthew 16:18—*And so I say to you, you are Peter, and upon this rock I will **build my church**, and the gates of the netherworld shall not prevail against it.*

These words describe the work and life of Bro. Adrian Wewer, a Franciscan brother who came to the United States in 1862. Trained as a carpenter, he quickly adapted his skills to design and construct about 100 churches, friaries, hospitals and college buildings across the United States.

Today, we begin a year of celebration activities to honor, remember and carry on the work and ethos of Brother Adrian.
